

MATH 78 : College Math Companion

This course provides students concurrently enrolled in MATH 100, MATH 101, MATH 111, or MATH 115 with Just-In-Time support with special emphasis on pattern recognition and problem solving. Course topics are tailored to the concurrent course and may include ratio and percent, unit conversion, graphs, data interpretation, basic algebra, solving linear equations, and working with formulas. (Grading is CR/NC)

Credits 1

Lecture Hours 1

Prerequisites

Satisfactory Placement Score

Course Outcomes

- Demonstrate college-level mathematical reasoning skills.
