

# ZOOL 105: Hawaiian Use of Fish and Aquatic Invertebrates

A study of fish and aquatic invertebrates used traditionally by Native Hawaiians. This class will examine the role of fish and aquatic invertebrates in Hawaiian culture and resource utilization and management.

**Credits:** 3

**Lecture Hours:** 3

**Program:** Zoology

**Recommended:**

High school biology.

**Student Learning Outcomes:**

- describe the origin of Hawaiian aquatic fauna in relationship to the geologic history of the Islands, human introductions and the environments in which they occur.
- identify (common names, scientific names, and Hawaiian names) the fish and aquatic invertebrates used in old Hawai'i and recent times and the roles these species played in Hawaiian culture and resource utilization.
- describe the various methods whereby aquatic animals were acquired, cultured, and managed.
